1. GETTING SKIN READY:

1.1: Clean skin with Basic Line Cleansing Milk, to remove makeup traces. Rinse with cold water

1.2: Apply a 3-4 minutes massage with Facial Cleanser cream Bijin.

1.3: Rinse with cold water

1.4: Apply Basic Line Micelar Water

1.5: Apply SALICYLIC ACID.

- Apply Prepeel with a gauze in face, neck and neckline.
- After that apply SALICYLIC ACID with a fan brush. Leave it from 4 to 8 minutes.
- After acid exposure remove excess of acid with a dry gauze and apply postpeel
- Leave postpeel from 1 to 4 minutes
- Rinse with water.

2. TREATMENT:

2.1: Select the most suitable enhancer according to the skin to be treated.

Place in the machine.

2.2: Apply HYDRA VACUUM to the face, neck and décolleté (10 to 15 minutes)

Use head 1 for general cleaning.

Use head 2 for areas with greater accumulation of dirt such as chin and brow.

Use head 3 for small areas such as the nose or localized comedones.

3. TREATMENT BOOSTER

NATURAL ALGAE MASK + THERMAL WATER

3.1 Place the matrix in a container and add 6 mL of activation liquid. The matrix is transformed from solid to liquid in a lubricating gel. Use a cosmetic brush to speed activation.

3.2 Spread the gel evenly over the skin, leaving out the hair line and the eyebrows.

3.3 Massage the skin for 10/15 minutes. The ingredients are released and used to work on the skin. Moisten again your fingertips, if necessary, to maintain the gel moist.

3.4 Remove any residue with a moist towel (warm or cold).

4. FINISHING:

4.1: Finish the treatment by applying SERUM DETOX.

5. DAILY CARE RITUAL:

5.1: Clean face, neck and décolleté with DEPURADORA BIJIN.

5.2: Recommend DETOX KIT

How to use:

During the seven days following the treatment:

At night: apply over the clean skin the content of one ampoule of salicylic acid and then

In the morning: apply the serum.
